European Commission: ERC Data Management Plan Template

Summary

dataset reference and name

Guidance:
Several datasets may be included into a single DMP.

origin and expected size of the data generated/collected

data types and formats

Making Data Findable

dataset description: metadata, persistent and unique identifiers e.g., DOI

Making Data Openly Accessible

which data will be made openly available and if some datasets remain closed, the reasons for not giving access

where the data and associated metadata, documentation and code are deposited (repository?)

how the data can be accessed (are relevant software tools/methods provided)?

Making Data Interoperable

which standard or field-specific data and metadata vocabularies and methods will be used

Increase Data Re-Use

what data will remain re-usable and for how long, is embargo foreseen

how the data is licensed

data quality assurance procedures

Allocation of Resources and Data Security

estimated costs for making the project data open access and potential value of long-term data preservation

procedures for data backup and recovery

transfer of sensitive data and secure storage in repositories for long term preservation and curation
